

Hello there, my name is Katie Field, I have two children and am a Parent Governor at St Peter and St Paul CE Primary School. I moved into the area in 2009, when the school was merely a vision and plan on a piece of paper. In September 2012 when the build was complete and ready to be shared with the community, my daughter attended her first day at school here. Since that day I have been involved within the school firstly as a volunteer, secondly I became a governor, thirdly I joined the Friends of the School and finally since 2014 I joined the school's team as a staff member. I am incredibly passionate about our school and the community it serves and have made a commitment to uphold the schools Christian and teaching ethos in that we 'maximise life chances'. I am currently studying towards a degree in Child Development and Learning Support to enhance my knowledge and take me to my end goal of becoming a teacher. I love hearing from parents and the community so please feel free to come and have a chat.
