

In geography we will be improving our locational knowledge – learning about hills, mountains and rivers in the UK.
Our visit to Cliffe House outdoor study centre in Huddersfield will develop our geography fieldwork skills, including learning more about rivers and the water cycle.

Science

In science we will be learning more about living things and their habitats. We will be answering questions such as: which animals live in the UK and how are they adapted to live here? Which plants grow well in a UK vegetable garden?

We will also research a famous naturalist such as Jane Goodall or David Attenborough.

What is so great about the UK?

We are artists!

We will be using photography, printing and ICT to create art showing our local area. Our ideas will be developed in our sketch books before moving on to create a final piece of art work!

We are designers!

We will use our DT skills to design, make and evaluate a bridge based on the designs of famous bridges in the UK, making sure our bridges are strong and stable!

We are musicians!

Telko drumming will continue this term as we continue to work with Emma to develop our musical skills: listening, composing and appraising music.

PE: Games will focus on outdoor adventure activities such as orienteering and team-work skills.

WOW DAY 17th January

Come dressed as your favourite famous British person – be ready to explain your choice.
There'll be lots of British themed activities to take part in!

RE: Our theme this term is "Is anything ever eternal?" We will continue to learn more about Christianity and we will also learn about Islam.
