

Garry Drinkall

I am a co-opted Governor at St Peter and St Pauls which means I was asked to be a Governor when the full Governing body was formed. I started out on the temporary body before we had a building or any staff so I have been involved with the school for a long time. I became involved as I live on the Lakeside estate and it was the school that I planned on my children attending (and my eldest starts in september) so I had a keen interest in helping the schools become the best it possibly could be. I have worked in education for about 15 years supporting schools with their IT needs so I have a lot of experience and expertise in the challenges schools face in this area.
